Introduction	8
1. Market Overview	9
1.1. Top Manufacturers of FMCG.....	9
1.2. Top Manufacturers of other Industrial Sectors.....	14
1.3. Top Food Retailer	19
1.4. Top Trading Companies without Food Retail	23
1.5. Market for Agricultural Production.....	25
1.6. Market of Beverage Industry in Germany	36
1.7. Market of Personal Hygienic / Household Care Products in Germany	40
1.8. Consumer Electronics Market in Germany	41
1.9. Automotive Market	43
1.10. Market of Paper, Carton, Cardboard and Corrugated Boards in Germany.....	46
1.11. Market of Chemical-Pharmaceutical Industry.....	48
1.12. Market of Plastics	51
1.12.1. Worldwide plastic production in 2010	51
1.12.2. Plastic production in Germany in 2010.....	51
1.12.3. Development of plastic production and sales in Germany 2010.....	51
1.12.4. Usage of plastic types in Germany	52
1.12.5. Usage of plastic in Germany	52
2. Reusable Transport Packaging (RTP)	53
2.1. Stocks.....	53
2.2. Procurement, Rotation and Trip Costs.....	62
2.3. Overview of Reusable Transport Packagings used	69
2.3.1. Pallets.....	69
2.3.2. Large load carriers (LLC)	76
2.3.3. Small load carriers (KLT/ SLC).....	81
2.3.4. Other RTP	86
2.4. Manufacturers of Reusable Transport Packaging.....	91
2.4.1. Manufacturers of wooden Euro pool pallets in Europe	91
2.4.2. Important Manufacturers of Plastic Pallets.....	92
2.4.3. Important manufacturers of KLT/ SLC, LLC, fixed / foldable plastic boxes.....	93
2.4.4. Important Manufacturers of other plastic RTP.....	94
2.4.5. Manufacturers of EUR box pallets	94
2.4.6. Approved KLT/ SLC Manufacturers.....	95
2.5. Plastics for Packaging.....	96
3. Use of Reusable Transport Packaging	102
3.1. Exchange and Pool Systems	102
3.1.1. The europallets exchange pool.....	102
3.1.2. The new quality classification	102
3.1.3. Quality classification and recommendations for use.....	103
3.1.4. Features for the Classification of an Europallet.....	104
3.1.5. Essential pallet qualities in the exchange pool of europallets	105
3.2. Exchange Systems in the Exchange Pool of Europallets	106
3.3. Other Pool Systems.....	108
3.4. Pool Service Providers (alphabetical).....	110

Detailed overview about more than 40 main European Pool Service Providers

3.5. Overview Service Providers	218
3.5.1. Pallet service providers	218
3.5.2. Service providers for KLT/ SLC, LLC and other boxes.....	219
3.5.3. Service providers for layer-pads, containers for liquids and trays.....	220
3.6. Overview of service providers for repairs, maintenance, recycling and cleaning of RTP	221
3.6.1. Repairs EUR pool pallets and box pallets as per UIC	221
3.6.2. Recycling of plastic products.....	222
3.6.3. Washing services.....	224
4. Developments in the Market of RTP	225
4.1. Trends	225
4.2. New Products introduced in brief	226
4.3. Potential technical developments till 2015	232
4.4. Other RTP-relevant Developments	233
4.4.1. Developments in warehousing.....	233
4.4.2. Developments in the presentation of goods.....	234
4.4.3. Developments in the area of non-alcoholic beverages.....	236
4.4.4. Developments in the glass and can industry.....	237
4.4.5. Developments for the inspection of reusable containers	238
5. Goods Transporting and Reusable Transport Packaging	239
5.1. Quantities of Goods Transport	239
5.2. Forecast of the Revenue Generated from Goods Transport	241
5.3. Development of RTP Based on the Goods Transport	242
5.4. Overview of Factors influencing the increase in the Number of RTP	242
5.5. Volume Reduction during the Transport of Empties of FLC / GLT	243
5.6. Effect of Volume Reduction on the CO₂ Emissions	244
5.7. See Freight Development	245
6. Management Systems	246
6.1. Load Carrier Management and Tracking Systems	246
6.2. ERP	246
6.3. RFID	247
6.4. EPCglobal	248
6.4.1. 1D Codes.....	249
6.4.2. 2D Codes.....	250
6.4.3. Global RTP identification number (GRAI)	250
6.5. Selection of IT Service Providers of Management Solutions for Transport Packaging	251
7. Directives, Regulations and Standards	256
7.1. VerpackV (packaging regulation)	256
7.2. Hygienic Directives	258
7.3. REACH	261
7.4. ISPM 15	263
7.5. Traceability	264
7.6. Mandatory Deposit	264
Annex	266

Introduction

The 2012 edition of the study "Development and trends in the market for ReusableTransportPackaging" is a completely updated and substantially extended version - especially in the area of statistics - of the EKUPAC market survey that appears every 2 years. It is an overview that covers the strategic information requirement in the area of reusable transport packaging.

Market overview

The market overview lists the top companies in Germany and Europe belonging to the most varied industries, which make use of reusable transport packaging, along with the essential key figures.

Reusable transport packaging (RTP)

RTP stocks in Germany and Europe incl. production and repair figures as well as stock developments. Moreover, the processes for transshipment and handling of pallets are presented. Examples of circulation speeds and trip costs round off this topic. Another part gives is detailed overviews of the reusable transport packaging used and their manufacturers.

Use of reusable transport packaging

Overview of various pool systems as well as detailed information about more than 40 European pool service providers – from company data on products and services up to site overviews. This part also includes service providers for repairs, cleaning and recycling.

Development in the RTP area

Trends, new products, developments in storage and goods presentation.

Sustainability and reusable transport packaging

Sustainability and CO₂ are attracting more and more attention in all studies – even in the area of RTP. Data on the volume of transported goods, forecast of the transported quantities and goods traffic - dependent development in RTP, influencing factors and volume reduction form the relevant basis for information.

Management systems

Companies and products with respect to control, tracking and administration of RTP – an increasingly important factor in the supply chain.

Guidelines

Hygiene, HAACP, IFS, REACH, ISPM, mandatory deposit and other ordinances.
